AI DEVELOPER | PYTHON BACKEND ENGINEER | GENERATIVE AI

PROFESSIONAL SUMMARY

AI Developer with **4.5+ years** of experience building **multi-agent AI systems**, **RAG-based chatbots**, and **enterprise AI automation** using LangChain, OpenAI, Google ADK, and Microsoft Copilot Studio. Delivered AI solutions at scale for **Mahindra (Fortune 500)**. Hands-on with **TensorFlow**, **PyTorch**, and **Kubernetes**. Strong backend expertise in Python (Django, FastAPI, Flask) with cloud deployments on **Azure** and **AWS**. Certified in **Generative AI**, Azure, and AWS Cloud.

PROFESSIONAL EXPERIENCE

AI Developer

Sep 2022 — Present

Bristlecone (Mahindra Group) | Mumbai, India

- Built a **Microsoft Copilot Agent** on **MS Teams**, enabling enterprise-wide conversational AI serving Mahindra's workforce across multiple business units
- Architected **multi-agent AI systems** using LangChain — specialized agents collaborating on data retrieval, analysis, decision-making, and automated reporting
- Developed **RAG-based chatbots** using LangChain, FAISS, and OpenAI APIs, delivering context-aware responses from **10,000+ internal documents**
- Built an **AI-powered Offboarding Agent** using **Google ADK** to automate employee exit workflows, access revocation, and compliance checks
- Created **automated ticketing system** using Azure NLP chatbot, streamlining email-to-ticket pipelines and reducing manual effort
- Developed **WhatsApp chatbot** for Mahindra dealers using FastAPI & Infobip API — real-time account queries, receipts, and outstanding amounts
- Led **Generative AI initiatives** — email draft generation (OpenAI GPT), resume processing automation, and intelligent OCR workflows
- Designed scalable **REST APIs & GraphQL endpoints**; managed cloud deployments on **Azure & AWS** with Docker containerization

KEY PROJECTS

Copilot Agent on MS Teams
Enterprise Copilot Agent for AI-powered workflows using Copilot Studio, Azure, and MS Teams integration.
Copilot Studio | MS Teams | Azure | Enterprise AI

Multi-Agent AI Systems
Orchestrated multi-agent architectures — specialized agents for data retrieval, analysis, and automated reporting.
LangChain | Multi-Agent | AI Orchestration

RAG-based Chatbot
Context-aware chatbot using LangChain, FAISS, OpenAI for precise retrieval from internal knowledge bases.
LangChain | FAISS | OpenAI | RAG

Offboarding Agent (Google ADK)
AI-powered employee offboarding automation — workflow orchestration, access revocation, compliance checks.
Google ADK | AI Agent | Automation

AI Agent Development
LLM-powered agent with external API integration, real-time data processing, and secure tool-calling.
LLM | Tool-calling | APIs | Automation

Model Context Protocol (MCP)
Structured tool communication and agent interoperability using MCP for cross-platform AI agents.
MCP | AI Agents | Interoperability

WhatsApp Bot for Dealers
Real-time dealer chatbot for account queries, receipts, outstanding amounts via FastAPI & Infobip.
FastAPI | Infobip | WhatsApp API

Email Generator & OCR Automation
AI-powered email drafting with OpenAI GPT and automated document processing pipelines.
OpenAI GPT | FastAPI | NLP | OCR
